

## Sports Betting

**Authorized Operators:** The New Hampshire Lottery Commission is permitted to procure private agents to operate up to 10 retail sportsbooks and up to five mobile skins. Additionally, the Lottery is authorized to offer parlay and proposition sports wagers via lottery retailers. The commission held a Request for Proposal (RFP) and selected DraftKings as the exclusive operator to offer retail and mobile betting, while Intralot was selected to offer a sports lottery product.

**Mobile/Online:** Mobile wagering is permitted. The Lottery Commission was permitted to procure private agents to operate up to five mobile skins. However, the Lottery Commission selected DraftKings as the only permitted mobile operator.

**Taxes & Fees:** NHLC will select from the group of bidders the agents whose bids provide the state with the highest percentage of revenue from the sports wagering. In 2019, NHLC selected DraftKings as the sole mobile and retail operator in the state. Additionally, Intralot was selected to offer a sports lottery parlay product.

By operating exclusively in the state, DraftKings agreed to pay the New Hampshire Lottery 51 percent of gross gaming revenue (GGR) generated from its online platform and 50 percent of all GGR from retail.

**Amateur Restrictions:** Wagering is prohibited on NH collegiate teams and any collegiate game taking place in the state, except for multi-site tournaments that include games that are played in-state and out-of-state (e.g., March Madness).

Additionally, betting on all high school events is prohibited as well as amateur sports events where the participants are primarily under the age of 18.

**Tax on Promotional Credits:** The operating contract between DraftKings and the NHLC states that “promotional payments” such as bonuses, DK dollars, DK crowns, odds boosts, free play and free bets, and loss insurance/ rebates will not be considered part of the calculation of GGR. However, promotional payments may not exceed 15 percent of GGR for the online platform and 10 percent of GGR for retail, unless authorized by the NHLC..

**Age Restrictions:** Individuals must be at least 18 years of age to participate in sports betting.
